

Patient Information Sheet

Urine Collection - Series for Cytology

No appointment is necessary for this test

Your doctor has referred you to have a series of urine tests for cytology.

- One sample of urine per day is to be collected on consecutive days.
- The second urine of each day is the best specimen.
- Please label each container clearly with your full name, date of birth, the date and time you collected the urine and the number of urine in the series e.g. 2 of 6.
- Collect the first part of the urine stream directly into the yellow container until it is 1/2 - 2/3 full.
- Finish urinating into the toilet.
- Please ensure lid is on correctly and tightly screwed down to avoid spillage, and place specimen in plastic bag.
- Please deliver your urine sample to your nearest Collection Centre on the day of collection.
- If there is any delay in delivery the specimen should be kept refrigerated.

For further information or to make an appointment, please contact your nearest Collection Centre

Updated Collection Centre details may be found:
